

**M-SERIES UNDERBODY BOX** - The best underbody box in the industry offers the most weather-tight package available. In addition, the M-Series offers an offset hinge which allows the box to be flush mounted, giving the door 180° of unobstructed movement.

- Seamless corners on all smooth materials
- Stainless steel T-handle with lock and key  
*(optional 3 pt. latching available)*
- Full stainless steel offset hinges *(hinge and pin)*
- Stainless steel fasteners
- Automotive rubber bulb seal
- 4-sided weather shielded door frame
- Gusseted bottom corners for additional strength *(aluminum boxes)*
- Armor-D protective powder coat finish *(steel boxes)*
- RC's unique gusseted, adjustable chain bracket

Available materials include - .125" smooth or .100" and .125" diamond bright aluminum, 14 gauge 300 Series stainless steel, 14 gauge powder coated steel and any combination of these materials.

Sizes: 24"Wx14"Hx12"D or 24"Wx14"Hx16"D and 18", 24", 30", 36", 42", 48", 60", \*72", \*90" and \*96" widths by 18"Hx18"D, 18"Hx24"D or 24"Hx24"D - Many custom features, materials and sizes available.

**RC's STORAGE PACKS are designed to fit flush with truck cabs, providing stylish convenience and generous storage capacity...**

STORAGE PACK  
MODEL NU825524.U  
(application shown on page 8)

STORAGE PACK  
MODEL LM824624.K

STORAGE PACK  
MODEL JX963624.X

**N-SERIES STORAGE PACK** - Another industry leader in design and function, this "store-almost-anything" package fits conveniently between the truck cab and the body of most cab chassis trucks. Four doors, two shelves and two rope hooks are standard equipment in this product. Assisted by gas springs, easy openings and secure closings are assured.

- Heavy-duty floor, 12 gauge steel, .190" aluminum
- Stainless steel T-handle with lock and key
- Full stainless steel hinges (*hinge and pin*)
- Stainless steel fasteners
- Automotive rubber bulb seal
- Heavy-duty gas spring (*struts*) on all doors
- 4-sided weather shielded door frame
- Two shelves
- Two rope hooks
- Unique angle/U-Bolt mounting system (*no mounting holes in box*)
- Armor-D protective powder coat finish (*steel box*)

Available materials include - .125" smooth or .125" diamond bright aluminum, 14 gauge steel with 14 gauge 300 series stainless steel doors.  
Sizes: 82"Wx55"Hx24"D and 94"Wx58"Hx24"D

**L-SERIES FLAT BOTTOM STORAGE PACK** - The L-Series has the same features as our N-Series storage pack, yet presents a flat bottom for use on many of the popular import chassis.

Available materials include - .125" smooth or .125" diamond bright aluminum, 14 gauge steel with 14 gauge 300 series stainless steel doors.  
Sizes: 82"Wx46"Hx24"D

**J-SERIES X-BODY STORAGE PACK** - Utilizing wasted space between the cab and body on most trucks, the J-Series series easily handles long and bulky items.

- Heavy-duty gas spring (*struts*) on all doors
- Stainless steel T-handle with lock and key
- Full stainless steel offset hinges (*hinge and pin*)
- Stainless steel fasteners
- Automotive rubber bulb seal
- 4-sided weather shielded door frame
- Armor-D protective powder coat finish (*steel box*)
- Also available as a saddle-style, drop-over-the-frame box

Available materials include - .125" smooth or .125" diamond bright aluminum, 14 gauge steel or 14 gauge 300 series stainless steel doors.

Sizes: 96" width by 24", 36" or 48" heights by 24" depth.  
Call for additional sizes.

Many custom features, materials and sizes are available.

**SPRING LOADED MOUNTING KIT (RC051)** - Our mounting kit provides a unique and effective way to isolate frame rail flex from the storage pack, while simplifying the installation process. It greatly extends the life of your storage pack and reduces installation costs.

**An industry leader, RC's variety of UNDERBODY BOXES offers the ultimate in space saving convenience and weather-resistant durability...**

F-SERIES  
MODEL FU482424.U  
(road-side standard)

P-SERIES  
MODEL PS361818.S

**Z-SERIES UNDERBODY BOX** - For customers seeking a toolbox with a flush mounted door. The Z-Series provides superior rigidity and durability in a cost effective package.

- Seamless corners on all smooth materials
- Heavy-duty steel construction with a fully lined door
- Stainless steel T-handle with lock and key  
*(optional 3 pt. latching system)*
- Strong door retainer chains
- Neoprene weather-tight seal
- Armor-D protective powder coat finish
- Full stainless steel hinge *(hinge and pin)*

Sizes: 24"Wx14"Hx12"D or 24"Wx14"Hx16"D - Standard dimensions: 18", 24", 30", 36", 42", 48", 60", \*72" and \*96" widths by 18"Hx18"D, 18"Hx24"D or 24"Hx24"D - Custom sizes are also available.

\*standard double door boxes

**F-SERIES UNDERBODY BOX** - Undoubtedly the industry leader. This double swing-out style box offers superior quality, convenience and construction features not found on other boxes.

- Seamless corners on all smooth materials
- Anti-sag brackets standard on 48" and larger boxes
- Stainless steel T-handles with lock and key *(2 pt. latching system)*
- Full stainless steel offset hinges *(hinge and pin)*
- Stainless steel fasteners
- Reinforced doors for extra strength and durability
- Gas springs on both doors and automotive rubber bulb seal
- 4-sided weather shielded door frame
- Gusseted bottom corners for additional strength *(aluminum boxes)*
- No center post allows unobstructed access
- Armor-D protective powder coat finish *(steel boxes)*
- Adjustable doors, allows fine tuning of door fit

Available materials include - .125" smooth or diamond bright aluminum, 14 gauge 300 Series stainless steel, 14 gauge steel and any combination of these materials.

Sizes: 36", 48", 60" and 72" widths by 18"Hx18"D or 24"Hx24"D Custom sizes are also available.

**P-SERIES UNDERBODY BOX** - The top hinging version of our M-Series box offers the same weather-tight package you would expect from an RC box.

- Seamless corners on all smooth materials
- Stainless steel T-handles with lock and key  
*(optional 3 pt. latching system available)*
- Full stainless steel offset hinges *(hinges and pins)*
- Stainless steel fasteners
- Automotive rubber bulb seal
- 4-sided weather shielded door frame
- Armor-D protective powder coat finish *(steel boxes)*
- Dual, heavy-duty gas springs

Available materials include - .125" smooth or diamond bright aluminum, 14 gauge 300 Series stainless steel, 13/14 gauge steel and any combination of these materials.

Sizes: 24", 30", 36", 48", 60" and \*72" widths by 18"Hx18"D, 18"Hx24"D or 24"Hx24"D. Many custom features and sizes available.
